

November 25<sup>th</sup>, 2008

Dear New Member,

Congratulations on becoming a member of the Canada Green Building Council!

Ensuring that you are kept apprised of how the Council is striving to make Canada's buildings more sustainable is important to us. Therefore, we will strive to provide you, as a member, with regular electronic broadcasts and updates regarding the Council's educational and promotional activities, the implementation of tools, and the sharing of design practices and green building information. Please note that we are in the process of putting together a membership package that will be sent out to you at a later date.

Your commitment to join is an important step in building the organization. Your membership and sponsorship will assist the Council in hiring the necessary staff to deliver its strategic objectives.

We also wish to assist you in your professional endeavors by providing you with an electronic version of the Canada Green Building Council electronic logo, which you are welcome to use for your own purposes.

If you have any questions and/or comments, please feel free to contact the Council at [info@cagbc.org](mailto:info@cagbc.org)

Thank you for your support and interest in our Council.
